PROVA IDONEITA' LINGUA INGLESE

PROVA N. 1 - estratta

Spring

Spring is a wonderful season that comes after winter. During spring, the weather gets warmer and the days become longer. Flowers start to bloom, and trees grow new leaves. The grass becomes green again, and animals wake up from their winter sleep.

In spring, people enjoy spending time outdoors. They go for walks in the park, have picnics, and fly kites. Children love to play outside and hunt for Easter eggs. Families often have barbecues and spend time together in nature.

Spring is also a time for new beginnings. It's a time to plant seeds and watch them grow into beautiful flowers and vegetables. Farmers start working in their fields, and baby animals are born.

Many people celebrate spring festivals, like Easter and May Day. They decorate their homes with flowers and colorful decorations. Spring is a season of joy and renewal, bringing happiness to people all around the world..

PROVA N. 2 - estratta

The sea

The sea is a big body of water that covers a lot of the Earth. It's really big and can be different colors like blue or green. The sea is home to many animals like fish, dolphins, and whales. Some animals, like crabs and starfish, live on the bottom of the sea.

People like to go to the sea to have fun. They can swim, play in the sand, or go fishing. Some people like to ride boats on the sea and explore different places. The sea can be calm and peaceful, but sometimes it can be rough with big waves.

When you're at the sea, you can feel the salty water and hear the sound of waves crashing. It's really relaxing to sit by the sea and watch the sunset. Sometimes you can find shells and other treasures washed up on the shore.

Overall, the sea is a beautiful and amazing place full of life and adventure. It's fun to visit and explore, and there's always something new to discover.

PROVA N. 3 - estratta

Computers

Computers are machines that help us do many things. They can be big or small and come in different shapes and colors. Computers have screens where we can see information, and keyboards and mice to type and click.

With computers, we can do lots of fun and useful things. We can play games, watch videos, and listen to music. We can also use computers to do schoolwork, like writing essays or doing research.

Computers are also used for work. People use them in offices to write emails, make spreadsheets, and create presentations. Some people even use computers to work from home.

To use a computer, you need to turn it on and log in with a username and password. Then, you can open programs and apps to do different tasks. Computers are really helpful tools that make our lives easier.

PROVA N. 4

Cats

Cats are furry animals. They have soft fur and sharp claws. Cats come in many colors like black, white, and gray. Some cats have stripes or spots on their fur.

Cats have long tails that they can use to balance. They like to chase things like toys or bugs. Cats can jump very high and they are good at climbing. Sometimes they sleep a lot during the day.

Cats like to groom themselves by licking their fur. They clean their faces with their paws. Cats have sharp teeth and they eat both wet and dry food. They also need fresh water every day.

Some cats like to be petted and cuddled, while others prefer to be alone. They can make different sounds like meowing, purring, or hissing. Cats communicate with each other using body language too.

If you have a cat, it's important to take care of it. That means giving it food, water, and love. Cats can be great companions and they often become part of the family.
